

ATTENTION  
YEAR 6 PRIMARY TEACHERS

# “DOING SCIENCE”

*Making the transition to secondary school science!*

An end of year program that gives your students the opportunity to experience the secondary laboratory classroom. Students will meet and work with our young scientists on a variety of engaging and fun tasks that explore the living world and capture the imagination.

## Program

Arrival 9.45 Start 10.00 Finish 12.30

Students perform a series of tasks that explore such questions as “What’s in the green pond,” “Why do I have blue eyes when my parents have brown eyes?” and “What is a DNA fingerprint?”. Students have the opportunity to answer these questions by making observations, performing experiments, interpreting data and drawing conclusions.

## Details

This program is available to Year 6 students only.

Maximum class size: 30 students.

Scheduling: November 16th, 17th, 18th, 23rd, 24th & 25th

This is a free program for students.

A school booking fee of \$50-00 applies to this program.
